SHOW CARD I

Now we want you to remember what *^respondent's name* was like two years ago and to compare it with what *^he/she* is like now. Two years ago was in 2000. I will read out situations where *^respondent's name* has to use *^his/her* memory or intelligence and we want you to indicate whether this has improved, stayed the same or got worse in that situation over the past two years. Note the importance of comparing *^respondent's name's* present performance with two years ago. So if two years ago *^respondent's name* always forgot where *^he/she* had left things, and *^he/she* still does, then this would be considered 'Hasn't changed much'. Please indicate the changes you have observed giving the appropriate answer from the card.
